

THE

**ARTEX**

GROUP LLC

## Mission Statement

The Artex Group LLC and its Subsidiaries are committed to managing health, safety and environmental matters as an integral part of our business. It is our policy to ensure the HSE integrity of our processes and facilities at all times and in all places. We will do so by implementing an HSE management system while continuing to follow these principles:

### COMPLIANCE

We will comply with all applicable laws, regulations and standards and will implement programs and procedures to insure compliance. Compliance with standards will be a key ingredient in training, performance reviews and incentives to employees.

### PREVENTION

We will employ a management system and put procedures in place which are designed to prevent activities and/or conditions that pose a threat to human health, safety and environment. We will strive to minimize risk and protect our employees by employing appropriate technologies and operating procedures, as well as striving to be prepared for emergencies. We will strive to prevent pollution of the atmosphere, land and water. We will make efforts to minimize the amount of waste generated.

### COMMUNICATIONS

We will communicate our commitment to HSE to our employees. This will be accomplished through training, regular safety meetings and annual compliance meetings.

### CONTINUOUS IMPROVEMENT

We will seek opportunities to continuously improve the effectiveness of the HSE management system, conserve natural resources and improve our adherence to these principles.
